

Autumn Hall Mixed-Use Development, Wilmington, NC

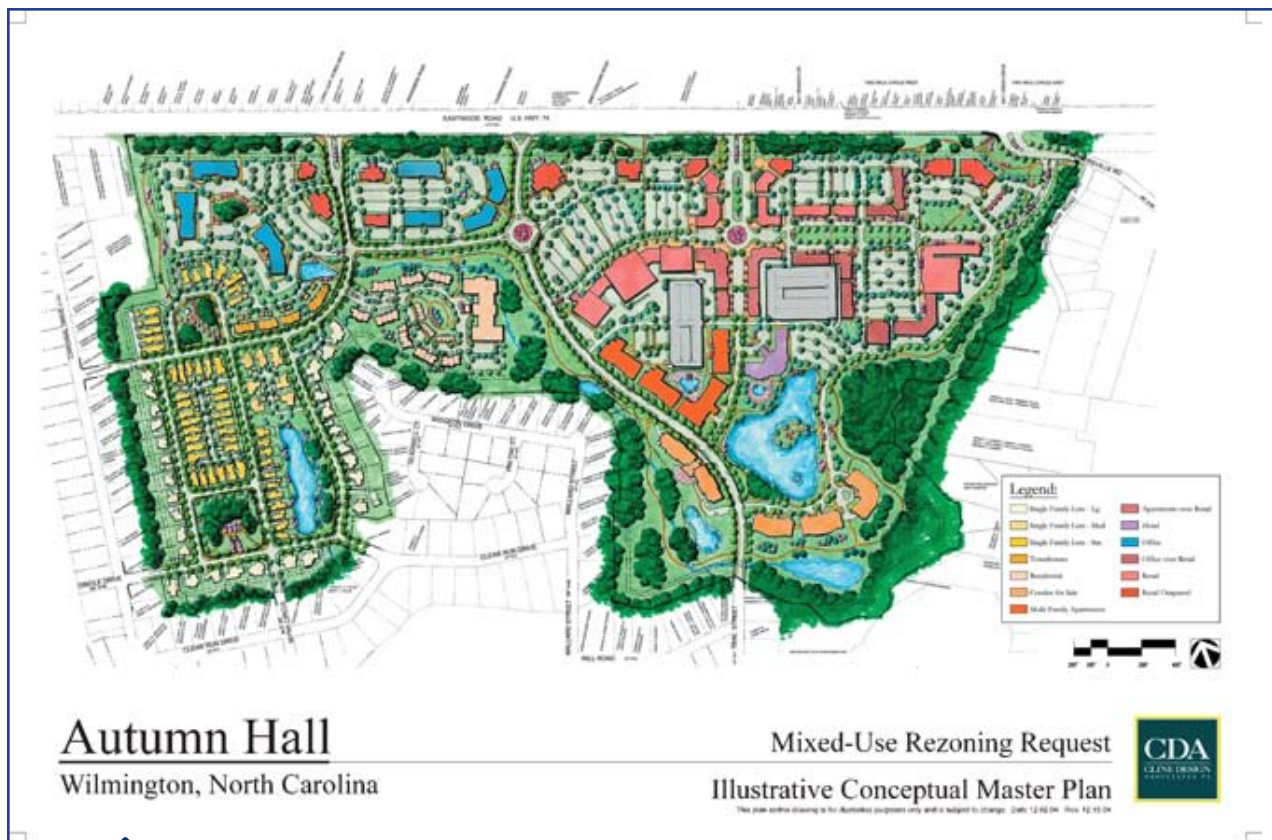

Services Provided by

- Traffic Impact Study
- Traffic Signal Design
- Electrical Detail Design
- Cable Routing Plans

Traffic Impact Study for a proposed mixed-use development including residential, office, retail, and hotel land uses. The project involved extensive traffic modeling of a coordinated signal system and emphasized the effects of the expected average daily traffic generated by the site on the surrounding roadway network.

Prepared 5 traffic signal and electrical detail designs for 2 new signals and 3 signal upgrades along US 74 (Eastwood Rd) in Wilmington. Prepared overhead and underground fiber optic cable routing/splice detail plans for coordination of signals within City of Wilmington Signal System.
